

extrusion & compounding

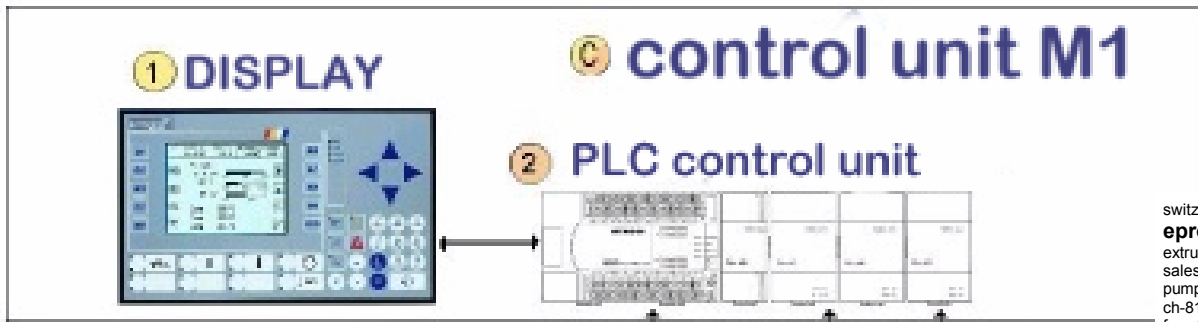

control and power unit	
M1	
features:	
pressure controller (p1) with auto cut-in function	
pressure indicator (p2)	
temperature controller (pump)	
melt temperature indicator	
pump speed indicator	
pump current indicator	
extruder speed indicator	
extruder current indicator	
trend graphics	
automatic start and shut off ramp	
optional features:	
filter control	
Digital In / Output:	0 / 24VDC
Analog In / Output:	0 - 10VDC
power supply:	400V 50Hz 3ph. N + Gr.
ambient temp.:	+5 - +55°C
installation:	internal, w/o aggressive agents and rel. humidity of < 80%, w/o condensation
execution:	according actual CE standards
dimensions (mm):	800 (L) x 600 (B) x 2200 (H)

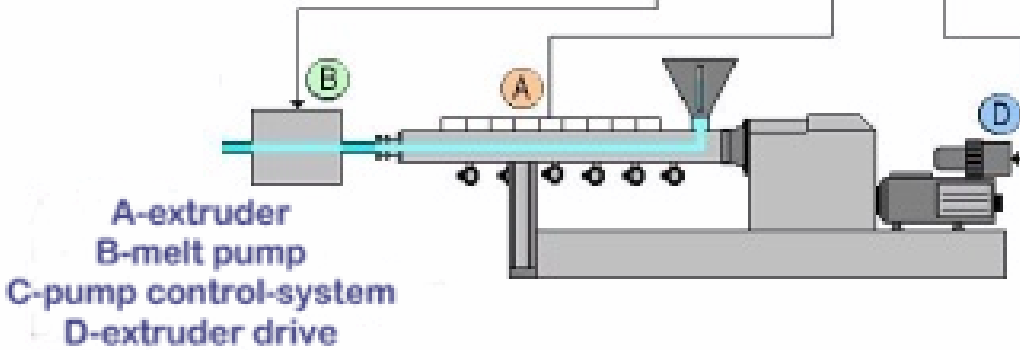

control and power unit
